Authorization for this examiner's amendment was given in a telephone interview with Frank Bernstein on 08/30/2007.

The application has been amended as follows:

In claim 83, page 12, line 10, "cost minimum value function" has been replaced by minimum value cost function.

Allowable Subject Matter

3. Claims 11-14,25-28,39-42,53-56,67-70 and 82-84 allowed. The following is an examiner's statement of reasons for allowance: a comprehensive search of prior art of record failed to disclose, either alone or in combination, a method for an optimal one-shot phase and frequency estimation for timing acquisition for signals transmitted over a communications channel, the method comprising: sampling a preamble comprising a known string of data bits; estimating the sampled preamble, the estimated preamble further comprising an estimated amplitude, an estimated frequency, and an estimated phase; calculating a cost function as a function of the estimated frequency and the

estimated phase; varying at least one of the estimated frequency or estimated phase to calculate a plurality of cost functions; and selecting the cost function having a minimum value, wherein the cost function having the minimum value is a function of an optimal estimated frequency and an optimal estimated phase, wherein selecting the minimum value cost function further comprises selecting a plurality of first minimum cost functions such that each of the first minimum cost functions has a different estimated frequency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
